Treasury Head Opposes Bond
Issue to Meet Expenditures
on Account of Canal.

An increased income tax, a tax on gasoline, crude and refined oils, horsepower of automobiles, and other internal combustion engines, and various "other articles not necessary to mention," and retention of the present sugar tariff and war emergency tax are recommended by Secretary of the Treasury McAdoo as necessary measures to meet the national preparedness program and the deficit that would otherwise result in 1917.

It is estimated that expenditures of \$250,000,000 will be necessary to meet the Administration program for the next fiscal year, and of this sum, Secretary McAdoo would raise \$112,806,394 by new taxes. He is opposed to a bond issue to meet expenditures of \$250,000,000 on account of the Panama canal on the ground that this work is nearly completed and that it would be better to use the ordinary revenues. If a sum to cover all expenses is raised by taxation, the Secretary believes that the falling away of canal expenditures would build up a surplus to meet future emergencies.

Analysis of the Situation.

In a statement made public today the Secretary says that in view of the many inaccurate and misleading statements which are being made about the condition of the Treasury and the finances of the Government, that "I feel that a true and accurate analysis of the situation may be of service to the public. The question of the national preparedness is intimately related to other vital problems which must be settled in the interest of the American people that every right-minded citizen should want the truth, in order that he may help form that intelligent public opinion out of which alone can arise sound and just conclusions."

Mr. McAdoo suggests a reduction in the income tax, exemption on single persons from \$1,000 to \$2,000 and on married persons from \$1,000 to \$3,000, and lowering of the surtax minimum on incomes from the present figure to \$15,000 or possibly \$10,000.

The estimated disbursements for 1916 and 1917 represent what the various departments of the Government expect to spend from the appropriations available in 1916 and from the estimates of appropriations submitted for 1917. The estimates of appropriations for the military establishment for 1917 are \$182,231,444, including \$7,822,000 for army preparedness.

For Military Establishments.

The appropriations for the military establishment for 1916 were \$114,388,751.13. The estimate of appropriations for the naval establishment for 1917 are \$219,550,291.21, including \$49,000,000 for naval preparedness. The appropriations for the naval establishment for 1916 were \$151,109,627.96.

While a total of \$115,822,000 will be asked for preparedness in 1917—\$67,822,000 for the army and \$48,000,000 for the navy—the War and Navy Departments estimate they will spend in 1917 only \$83,800,000 for this purpose; that is, \$38,800,000 for the army and \$45,000,000 for the navy. The estimate of expenditures for preparedness for 1917 are larger than the estimated disbursements, because the estimate of appropriations represent the beginning of a specific program, and do not contemplate spending all the money in one year.

Must Raise \$112,806,394 More.

In the estimated disbursements for 1916 there is included \$10,000,000 in grants from the Treasury for estimated postal deficiencies and \$4,000,000 for 1917 for the same purpose. The remainder of the postal expenses will be cared for by postoffice receipts.

Why's "Gets-It," for Corns, Like a Kiss?

Because Everybody Tries It, Everybody Likes It. It's Painless and Takes But a Moment to Apply.

"Gets-It" is the wonder of the corn-pestered world. Millions say so, because millions have used it. That's what makes it the biggest selling corn remedy.

"Never in My Life Saw Anything Act So Quickly and Magically as 'Gets-It'."

edy on earth today. "Gets-It" will surely get that corn or callus you've been trying for a long time to get rid of—take it right off "clean as a whistle." Apply it in 2 seconds—put your stocking and shoe right over it—nothing to stick, nothing to burn. You won't find with thick bandages that make a package out of your foot. No knives, razors and saws, no tape, no trouble. It's simply the best, sure, quick, painless. Try it also for bunions and warts.

"Gets-It" is sold at all druggists, 25¢ a bottle, or sent direct by E. Lawrence & Co., Chicago. Sold in Washington and recommended as the world's best corn remedy by O'Donnell's Drug Store, People's Drug Store, and P. G. A. Book-Advt.

LARGE ATTENDANCE AT CATHOLIC BALL

Convention Hall Is Packed at
Benefit for St. Joseph's
Orphans.

The annual ball of the Catholic Knights of America for the benefit of St. Joseph's Orphan Asylum attracted an attendance that taxed the capacity of Convention Hall, where the function was held last night. The dancing program was interrupted with drills by the fourth-degree Knights of Columbus and boys of the orphanage, and an exhibition of fancy dancing by Dr. Francis J. Kelly and Miss Olive Wolfe.

The committee in charge of the event, which was the most successful in the history of the organization, included: Executive—Michael A. Mess, president; I. Gwynn (Gardiner), vice president; P. A. Tobin, secretary; N. H. Shea, treasurer.

Reception—Michael A. Mess, chairman; George R. Repetti, H. Frank Saul, Robert Herberich, John Finn, A. B. Copes, M. Frank Ruppert, John A. Madigan, Michael Dowd, George Killian, C. free sugar provision of the present tariff, effective May 1, 1916, is not repealed, and the emergency tax which expires December 31, is not continued, the balance in the general fund will fall to \$27,644,905.78 at the end of the present fiscal year, June 30 next. Continued duty on sugar and continued emergency tax would bring the total to \$112,841,695.78.

PARK EMPLOYEES ASK INCREASE OF WAGES

Declare Man With Family Can't
Live in Washington on Less
Than \$2 Per Day.

Park employees of the public buildings and grounds of the District have arranged through a committee to have a bill presented in Congress to increase their pay from \$1.50 per day to \$2, and for bi-monthly payments.

A letter has been sent on the subject to Chairman Fitzgerald, of the House Appropriations Committee. It is signed by a committee composed of E. E. McGowan, J. F. Esak, and H. S. Reese. The committee represents that \$2 per day is the least that a man with a family can live on in Washington, and that the minimum of pay for park employees in New York and other large cities is \$2.25. Recently, the committee saw Colonel Hart, but he informed the members that he was powerless without an appropriation from Congress.

Found Simple Remedy that Relieved Child

Mild Laxative Compound Corrects
Stubborn Case of
Constipation.

An important duty that devolves on parents is the regulation of their children's bowels. Health in later life depends in large measure on early training and a child should be taught from infancy to regular habits.

When from any cause the bowel becomes congested with stomach waste a mild laxative should be employed to open up the passage gently and carry off the congested mass. A most effective remedy for this purpose is the combination of simple laxative herbs known as Dr. Caldwell's Syrup Pepsin.

Dr. Caldwell's Syrup Pepsin contains no opiate or narcotic drug, and is a splendid remedy for children and older people as well. It has been

BRYAN AND BAILEY LIE, SAYS AERO MAN

President Hawley Denies Charges
of Defense Lobby Made
in "Commoner."

NEW YORK, Nov. 26.—The Aero Club of America has put William J. Bryan and Congressman Bailey of Pennsylvania in an Annapolis club of its own, alleging they asserted in the "Commoner" for November that the Aero Club and other defense organizations maintain a lobby for the dissemination of misinformation concerning the defenseless condition of the United States. Alan R. Hawley, president of the club, made the following statement:

"If William Jennings Bryan and Congressman Bailey of Pennsylvania have made such a statement as has been brought to our attention, in plain Anglo-Saxon they are deliberate liars, and I wish to brand them as such."

The patriotic and successful work of the Aero Club of America in its present movement to develop aviation corps in naval military and national guard to make up for the utter lack of aeroplanes in the army and navy and in acquainting the people of the nation with the aeronautical needs of the country speaks for itself.

To Give a Social.

The South American Club of the Y. W. C. A. will give a social to members and friends in the parlors of headquarters tomorrow evening.
